

COMING IN 2027

STATE REPRESENTATIVE
J.D. PRESCOTT
HOUSE DISTRICT 33

A BILL TO ELIMINATE PROPERTY TAXES

The Problem

Property taxes are **a constantly increasing tax** on your home's 'paper' gains

Property **assessments are inconsistent**

We never truly own our property

We are effectively renting from the government - forever!!

Scan for more info:

The Solution

Eliminate property taxes for residential, business, agriculture - **EVERYONE!**

Instead, a 7% tax on services - **a fairer system based on consumption.**

Example: haircuts, landscaping, home improvements

Those who can afford larger services can afford the extra; young adults won't be burdened

Everyone can climb the housing ladder - no excessive property tax to factor into monthly payments!

Exemptions for healthcare, education, already exempt categories

No new debt or TIF districts tied to property taxes after passage

No more referenda!

END PROPERTY TAX FOR GOOD!

Paid for by J.D. Prescott for State Representative

What Happens Next

The bill will be **reintroduced during the next legislative session** – with 2028 as the final year property taxes are payable

YOU are encouraged to **contact your local elected officials in support**

The Result:

Schools & local units of government will be fully funded - same as today

\$13-15B revenue v. \$10.6B
